## Health and Safety

At Sheffield Calibration Services Ltd we recognise that the industries we provide a service for judge companies by their policies and actions on Health and Safety matters. A good Health and Safety record is at the forefront of our thinking, therefore, we provide and maintain '5S' controlled laboratories above and beyond what is required in the Health and Safety at work act (1974). We have safe systems of work in place to minimise the risks concerning handling and storage. We provide PPE and use less hazardous substances (COSHH). We also operate a strict No smoking policy on our premises

## Equal Oppourtunities

Sheffield Calibration Services Ltd provides equal opportunities for all current and future employees regardless of colour, religion, gender, age, disability, sexual orientation and any other minority status protected by discriminatory laws within the UK

## Environmental Statement

Sheffield Calibration Services Ltd is committed to minimising the impact of its activities on the environment. Our key points to achieve this is to use energy efficient lighting, minimise the use of electricity and waste and to recycle any waste accrued
